Summary

I am a second year diploma Computer Science student with a strong interest in software development, Data Structures and Algorithms, and problem solving. Skilled in Python, HTML5, and CSS, with hands-on experience solving algorithmic challenges on LeetCode and currently learning JavaScript to strengthen front-end development skills. Continuously improving knowledge of DSA concepts such as Binary Search, Two Pointers, and Hashing while building a solid foundation in programming and software engineering. Passionate about learning new technologies and developing efficient, real-world solutions.

Projects

Responsive product landing page

Recent June 2026 – Present

- Designed and developed a responsive premium perfume landing page using HTML5, CSS3, Bootstrap 5, and JavaScript.
- Built multiple sections including Hero, Features, Product Showcase, Customer Reviews, FAQ, Contact Form, and Footer.
- Implemented responsive design for desktop, tablet, and mobile devices using Bootstrap Grid and Media Queries.
- Added interactive navigation, smooth scrolling, hover effects, image slider, and JavaScript-based contact form validation.
- Deployed the project using GitHub Pages for live access.
- Technologies: **HTML5, CSS3, JavaScript, Bootstrap**

My portfolio

June 2026 – Present

- Designed and Developed a responsive portfolio using HTML, CSS bootstrap, tailwind CSS and JavaScript.
- Implemented Navigation between multiple pages. Created sections for about me, projects, skills, and contact information.
- Technologies: **HTML5, CSS3, JavaScript**.

Technical Skills

Python
object-oriented-programming
HTML5
CSS3
JavaScript
Bootstrap
Flask
Tailwind CSS
Data structures and algorithms
Git
GitHub

Certifications and Achievements

- Solved more than 100 problems on LeetCode covering arrays, string, binary search, sorting algorithms, two pointer sliding window, stack.

Education

Government Polytechnic Darbhanga

Bachelor of Technology in Computer Science and Engineering

2025 – 2028

CGPA: 9.1 out of 10.0
